Section to be completed BEFORE THE MOBILITY

I. PROPOSED MOBILITY PROGRAMME

Language of training: Croatian

Overall objectives of the mobility:

After the positive project proposal within the Erasmus+ Call KA107 – 2020, we had no chance to start with project activities due to pandemic COVID-19 (project No 2020-1-HR01-KA107-077587). We have opened the Call for applications, held online meetings with our partners, and hopefully will start with first mobilities. Overall objective of the planned mobility is to visit our partner, the Faculty of forestry, with the aim of a broader understanding of our first joint project.

Training activity to develop pedagogical and/or curriculum design skills:

Yes ☐ No ☒

Added value of the mobility (in the context of the modernisation and internationalisation strategies of the institutions involved):

Mobilities as a first step will support us in further planned activities. We have already realized successful workshop with the respective partners, CAMPULA, in 2019th and some initial plan is to check the possibilities for renewing it once again. The workshop was about sustainable campus construction held between three countries, with around 20 students. The workshop concerns ecology and sustainable development. The theme is of high interest to our university and one of EUs priority development goals for the next Program cycle, 2021-20217.

Activities to be carried out:

Meetings with Faculty management and faculty visit. Presentation of the Erasmus programme and Call for proposals. Meetings with professor Emira and the rest of the team included in possible future activities for the student workshops. Review of existing activities at the Faculty.

Expected outcomes and impact (e.g. on the professional development of the staff member and on both institutions):

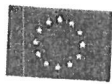

The expected outcome is to strengthen collaboration between our Institutions and repeat the workshop with professors and students, hopefully in 2022/2023.

II. COMMITMENT OF THE THREE PARTIES

By signing⁷ this document, the staff member, the sending institution and the receiving institution/enterprise confirm that they approve the proposed mobility agreement.

The sending higher education institution supports the staff mobility as part of its modernisation and internationalisation strategy and will recognise it as a component in any evaluation or assessment of the staff member.

The staff member will share his/her experience, in particular its impact on his/her professional development and on the sending higher education institution, as a source of inspiration to others.

Erasmus+ Higher Education: Mobility Agreement form Ivona Peternei

The staff member and the beneficiary institution commit to the requirements set out in the grant agreement signed between them.

The staff member and the receiving institution/enterprise will communicate to the sending institution any problems or changes regarding the proposed mobility programme or mobility period.

¹ Adaptations of this template:

- In case the mobility combines teaching and training activities, the mobility agreement for **teaching template** should be used and adjusted to fit both activity types.
- In the case of **mobility between Programme and Partner Countries**, this agreement must be always signed by the staff member, the Programme Country HEI as beneficiary and the Partner Country HEI as sending or receiving organisation. In case of mobility from Partner Country HEIs to Programme Country enterprises the last box should be duplicated to include the signature of the Programme Country HEI (the beneficiary) and the receiving organisation (four signatures in total).

² **Seniority:** Junior (approx. < 10 years of experience), Intermediate (approx. > 10 and < 20 years of experience) or Senior (approx. > 20 years of experience).

³ **Nationality:** Country to which the person belongs administratively and that issues the ID card and/or passport.

⁴ **Erasmus Code:** A unique identifier that every higher education institution that has been awarded with the Erasmus Charter for Higher Education receives. It is only applicable to higher education institutions located in Programme Countries.

⁵ **Country code:** ISO 3166-2 country codes available at: <https://www.iso.org/obp/ui/#search>.

⁶ Any Programme Country enterprise or, more generally, any public or private organisation active in the labour market or in the fields of education, training and youth (training of staff members from Programme Country HEIs in Partner Country non-academic partners is not eligible).

⁷ Circulating papers with original signatures is not compulsory. Scanned copies of signatures or electronic signatures may be accepted, depending on the national legislation of the country of the sending institution (in the case of mobility with Partner Countries: the national legislation of the Programme Country). Certificates of attendance can be provided electronically or through any other means accessible to the staff member and the sending institution.
